

## Engineering Department Annual Report 2019

A new water well, located along North Norrell Road, constructed in support of the Continental Project was completed in the summer of 2019. Funding for these improvements was provided by the Mississippi Development Authority.

The elevated storage tank located on Old Vicksburg Road was repaired and repainted and completed in the spring of 2019. TNEMEC, the supplier of the tank painting and sealing products, has highlighted this tank in their 2020 yearly calendar.

Improvements to portions of Easthaven and Briarwood Drives along with Welbourne Circle in BruenBurg were completed in the summer of 2019.

The City was awarded, in early 2019, funding to replace bridges on Cynthia Road, Kickapoo Road, and Midway Road. Design plans are being developed, permitting pursued and construction anticipated for all anticipated to start later in 2019 or early 2020.

Improvements to the Clinton Parkway were completed during the summer of 2019.

Approximately 7 miles of City streets were paved this year.

Throughout the year the Engineering staff provided support to the Public Works and other Departments of the City by review of numerous site development plans, assistance in installation of minor utility replacements, drainage culverts construction and other services dealing with long term infrastructure planning for the City.
